

## Velika logična pošast

## Nariši paralelogram

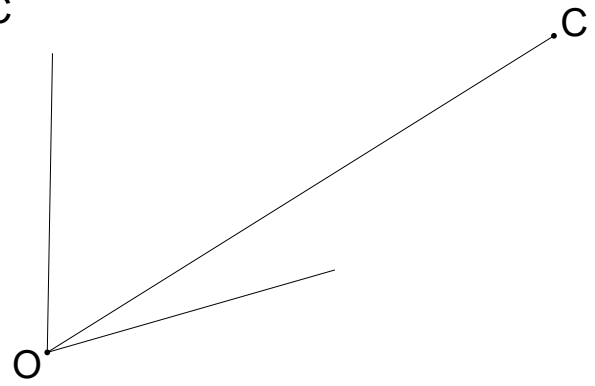

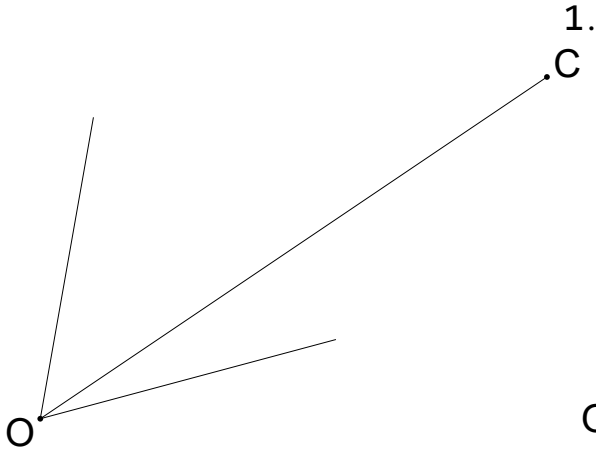

Tri daljice izhajajo iz točke O.

Nariši paralelogram, katerega diagonala je daljica OC, stranice pa so vzporedne drugima dvema daljicama.

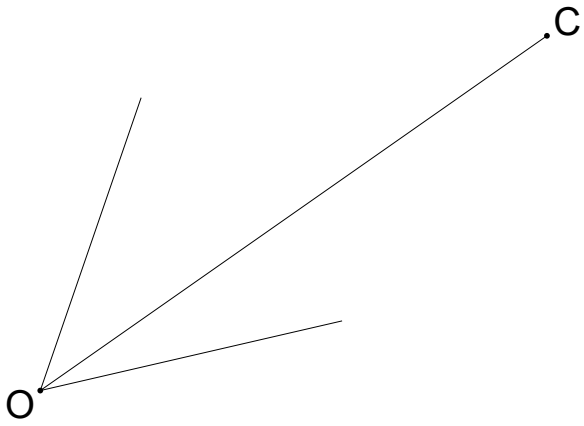

Napotek: podaljšaj spodnjo daljico in načrtaj vzporednico drugi daljic skozi točko C.

Tako smo dobili tretje oglišče paralelograma.

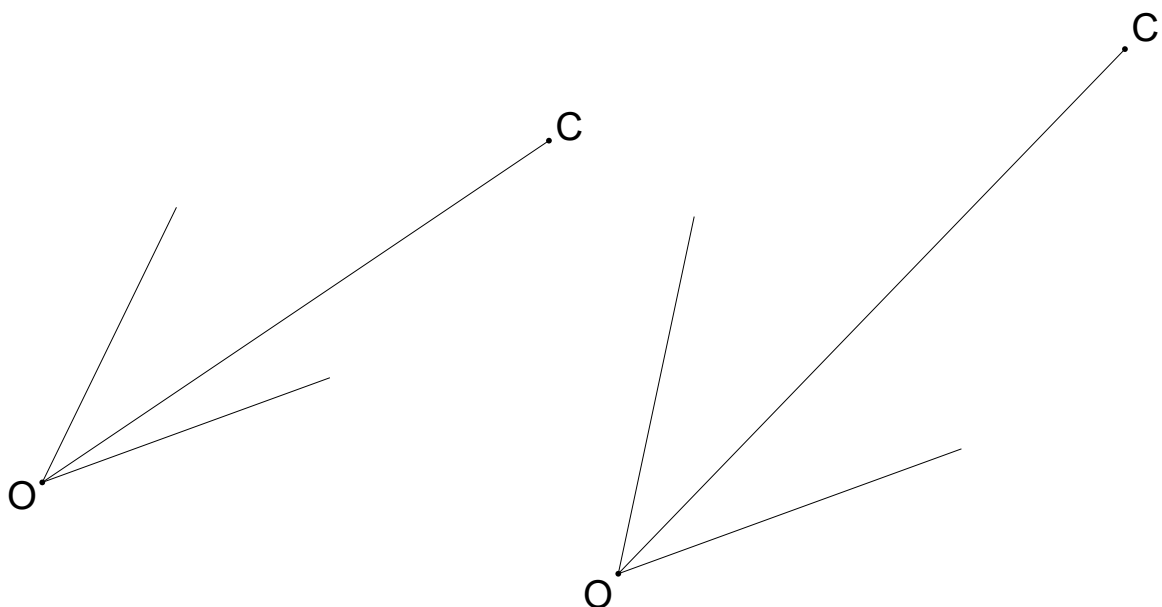

Na podoben način dobimo tudi četrto oglišče.
